

# **Corvett** Intensive cleaner for porcelain tiles

- Highly alkaline basic cleaner for microporous floor tiles
- Penetrates into the pores
- ▲ High anti-redepositing power
- Very low foaming even when used in higher concentrations

# Area of application

For basic cleaning of alkali and water-resistant tiled floors with smooth, rough or microporous surface, e.g. porcelain tiles and safety tiles. Not suitable for use on linoleum and rubber floors or on calcite-based stones such as marble or terrazzo tiles.

# Application

Please test on a small inconspicuous spot before first application. Adjacent areas and objects must be protected.

## Basic cleaning (mechanical wet cleaning):

Depending on the degree of soiling, 100-800 ml to 8 L of cold water.

Distribute the cleaning solution on the floor, leave to react for a short time, scrub, vacuum the dirty solution, rinse thoroughly with water. Use defoamer if excessive foaming occurs in the dirty water tank. Consumption: 3.0–22.0 ml/m<sup>2</sup>.

### Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. Not a consumer product according to 1999/44/EC Art. 1! For professional use only!

## Ingredients (according to 648/2004/EC)

Nonionic surfactants < 5%, anionic surfactants 5–15%, dyes, fragrances. pH value (concentrate): approx. 13

pH value (ready-to-use solution): approx. 11

### Classification

Classification (in concentrate): GHS05, Danger. H314 Causes severe skin burns and eye damage. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Contains: Isopropanolamine (INCI)
