

Opydes

Hygienic hand disinfection

- ▲ High-quality and user-friendly disinfectant for hygienic hand disinfection
- ▲ Tested to EN 1500, EN 13727, EN 13624, EN 14476, VAH-listed, virucidal against enveloped viruses, effective against SARS- CoV-2
- ▲ Included in the IHO List of Disinfectants
- ▲ Effective against bacteria (incl. MRSA, EHEC) and yeast, as well as against enveloped viruses
- ▲ Good skin compatibility even when used repeatedly and for long periods
- ▲ Free of fragrances and dyes
- ▲ Does not drip thanks to the gel-like consistency
- ▲ Nourishes and replenishes the skin
- ▲ Extremely economical
- ▲ Dermatologically safe
- ▲ Suitable for use in wall dispensers

Area of application

For hygienic hand disinfection. Ideal for use in the food and health care sector.

Application

Dispenser and packagings:

Place the original container into a suitable disinfectant dispenser for viscose products. Avoid mixing with other products. Fully empty the dispenser at least twice a year and rinse thoroughly with warm water. When using the screw-on dosing pump, screw this onto the canister, operate the pump twice (approx. 2 ml) and disinfect the hands as described. Thoroughly clean the inside and outside of the dosing pump with warm water prior to changing the canister.

Hand disinfection:

Dispense 2 x 3 ml of undiluted Opydes into dry hands and rub in. Rub hands in line with the standard method (EN 1500) to ensure complete coverage. Hands must be kept moist with Opydes for the entire reaction time (30 s). Opydes should be dispensed from a wall dispenser that is operated using the elbow.

Note

Kiehl accepts no liability or responsibility for damage caused as a result of incorrect use or application of the product. For professional use and private consumers. Use biocides safely. Always read the label and product information before use. The packagings are recyclable sorted by type. PT 01

Ingredients

Water-soluble solvents, additives.
pH value (concentrate): approx. 6

Active substances in 100 g:

80.0 g Ethanol (CAS: 64-17-5).

Classification

Classification (in concentrate): GHS02, Danger. H225 Highly flammable liquid and vapour. P102 Keep out of reach of children. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233 Keep container tightly closed. P235 Keep cool. Contains: Ethyl Alcohol (INCI)

Art. No.	Packaging unit (PU)	Numbers of PU per pallet
j470491	Carton of 18 x 150 ml bottles	66
j47040f	Carton of 8 x 500 ml square bottles	126
j470403	Carton of 6 x 1 L square bottles	105
j470405	Carton of 2 x 5 L canisters	56
